The May's Landing Catustrophe.

The Hay's Landing Catas trophe.

Atlastic City, N. J., 12—Following are the particulars of the railroid accident at May's Landing: The excursion train consisted of tweaty-ric care, sited to the impited, as distances of tout-rive in the first and ten in the second eccion. The train was filled with St. Ann's Catholic of the excursionists from Architecture in the first and ten in the second followed soon after. On reaching May's Landing the engineer of the lirst excluse a contract of the first section, the second followed soon after. On reaching May's Landing the engineer of the list excent itso, when the behind. The engineer of the list expression is the work, owing to the wet, and his locomotive enabled into the last are of the first section, the seam poured through the ear, realf-ling nearly every passenger in it. The work of removing the rijured, and the seam poured through the ear, realf-ling nearly every passenger in it. The work of removing the rijured, and the seam poured through the expression and the steam poured through the expression and the rain proceeds to Philadelphin, Physicians from Camden this morning. Her mather is of doad now numbers?

The attending physician gives little hope of the recovery. The list of doad now numbers?

The attending physician gives little hope of the recovery of Mrs. Wright of the removery of Mrs. Wright and the proceeds of the removery of Mrs. Wright and the procession of the restriction of the disaster would probably sealeded. In adjoining room less Mrs. Booth and the particular and covered with sayed in the procession of the remover of the regiment was severely was sent to Philadelphia, the hope of the recovery of Mrs. Wright is of doad now numbers?

The attending physician gives little hope of the recovery of Mrs. Wright is of doad now numbers?

The attending physician gives little hope of the recovery of Mrs. Wright is of the processing the provided that the remove of the regiment was severely and the premoved of the recovery of the list of the proposed to the regimen

collision.

Mrs. McCrystal ded this afternoon;
Lille Grose is terribly scalded and not
expected to live until mersing. C M.
Hosgland, conductor, and Edwin Aiken,
engineer of the second section of the excursion train, have been arrested on the
charge of manulaughter and held in
\$1,000 each.

New Yo New York, 12 .- The Tribune editorial Coast, while the lines already stretching northward bring northern and western Texas. Indian Territery, Kaneas and Missouri into relations with the same system. In a word, we have here a new Pacific railroad stretching from San Francisco and the Gulf of California to New Orlesns and St. Louis, the whole so far advanced that the experienced builders now confidently expect to run a through train over it by the end of 1882. We shall thus celebrate the centennial of the recognition of our independence with bands across the southwart holding the Pacific Coast as firmly to the Gulf as during the war of the rebellion it was fastened to the Atlantic.

Against the Daddy Bollar.

New York, 12.—At the bankers' convention at Saratoga, yesterday, Geo. B. Gibson, of Californie, read a long statement of banning afters on the Pacific clope, in which he said: Thirty years ago Thomas Beston, standing in the Senate chamber of the United States, pointing to the great west, with the value of probecy, erclaimed. There is the east. There is India. San Francisco, which is thus on the great international highway to the Orient, and 5,500 miles mearer than a than is London was Susz, is in a position to make silver shipments to China at a saving over all other silver markets of % to ½ per cent, in freight and insurance. Both as preducers and exporters of silver the Pacific states are as desply interested in the tariff law. The almost universal legislative crusade against silver would have been far more injurious to that region had not Congress in '72 provided for the trade doling. It is the opinion in best informed circles that the mare fact of converting silver late this converting the standard dollar abrogated the law providing for trade coin, but the new dollar is delitious in value and can never be expected. It is consel on government account, and at present quotations of 5254d, per ounce, it Against the Daddy Dollar. point on government account, and a present quotations of 525(d. per ounce, a worth only 80 c. on the dollar.

The British Railway Disaster.
London, 12.—The train which met with the accident on the Midland Railroad between Lords and Lancseter, pesterday, was a local fast train running from Leeds to Morecomb. All persons killed or injured belonged to that section. The train left the track passing the switch near Wennington Station; speed, thirty miles as hour. The forward carriages to incopped and others were piled on them in a heap, but the serious cascalties were confined to the first two carriages. The suffering of victims was terrible. From out the concealing vapor came abriets of women, waits of children and yells of men. People on the first train ran pell mell from the care or jumped through the windows, and it was some time before they because sufficiently composed to make expect efforts to rescue the The British Railway Disaster. posed to make earnest efforts to rescue th injured and relieve their sufferings.

#### A Little War.

South Temp is Street, one bitch and a baif tast side of the Depot.

ALLILE KINDS OF SHEET-IKON A ORK DONE! jeb more and several sounded in the water and several sounded in the water and several sounded in large numbers and one fired several shots at Americans on this side.

#### SOUTH AMERICA.

Railways and Wars and

Panama, 3.—A contract has been signed in trustemals for the extension of the San Jose and Excunital Railroad, to the impitel, a distance of toty-five miles. The contractors are William Naume and Louis Schlessinger, who have just anceastully completed a section which runs from the principal pert of the republic to Ex uint a, a distance of tainty-tarse miles. The contractors represent a California commany and have abundant means to see impited the contract in legities months. The Nicaragua Railway is progressing rapidly, grading being nearly completed from Cerinia to Leon. The bridges, rails set, are on the ground, and it is certain to be opened for traffic within a few months.

Complications with Guntemala and Hondaras en one side and San Sa vador and Costa Rica on the other are threatening to disturn the tranquility of Central America.

Advices from Lime, July 13, state that the empliing of the population of Lima and Callao, to form any army reserve.

Saratoga.—12.—The bankers' convention re-umed its session to-day. Alex. Mitchell, of Milwausee, was re-cleoted president; vice-presidents were also chosen from each state and torritory. B-solutions is favor of a governi bank-rupujaw, endorsed by the executive committee, were laid on the table. A letter from Socretary Sherman was read.
